yearbook of the class of 1959

Vassar Brothers Hospital

Poughkeepsie, New York

Jane Secor

If we, the class of 1959, were to single out the one person who has done the most for us; who has been our constant inspiration through our three years, it would be you, Miss Jane Secor. Therefore it is our privilege to dedicate this issue of White Caps to you, hoping it will somehow show you how much you have meant to all of us. Thank you for always being here whenever you have been needed. No matter where we travel in years to come there will always be a very special space in our hearts for you.

# Appreciation

Mrs. Marguerite Worthington

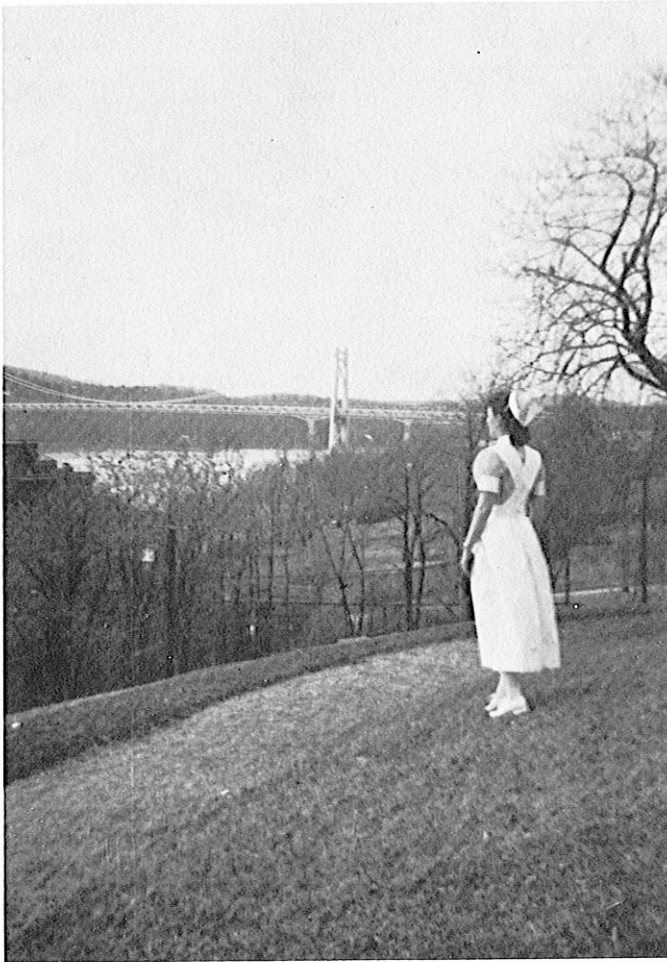

To our class advisors of the past three years for their unfailing help and encouragement, we, the Seniors, are proud to show our warmest appreciation in the 1959 White Caps. For giving us that extra lift, for always willingly holding out that helping hand when it has been needed, we thank you from the bottom of our hearts. May all the classes in the years to come be as fortunate as we have been.

Mrs. Patricia Townsend

Mrs. Marguerite Evans

Once again a class of senior nursing students gather together to look back over three years of happy memories and endeavor to put them all in one book. But there is much too much to fill even several volumes. How can we possibly thank every person who has had a part in our lives here at VBH? The patients who have been so understanding, the instructors, nurses, doctors, and all other hospital personnel who have been so eager to help.

## Foreword

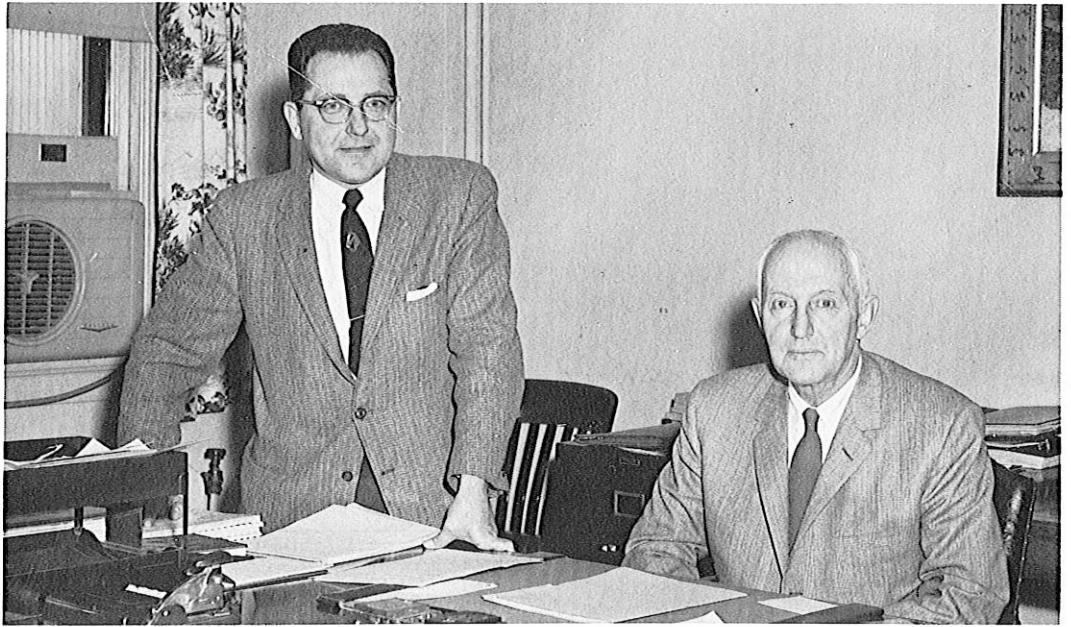

Those days in New Tower, Old Tower, the parties, picnics, dates, affiliations, and working together will remain as much a part of us as our arms and legs. We've laughed and cried together for three short years, and as the time comes to don the uniform of a graduate nurse we are not only proud and happy, but nostalgic to think that we will never be as close again.

We hope this yearbook will not only be an invaluable glimpse at memories for us, but an enjoyable guide to the life of a student nurse to all those who read it.

Good-bye is too sad and final a word to use, so may we just say Thank you to everyone. You are all a very important part of our memories.

We leave you now to enjoy our book. May you all have as much pleasure in reading it as we have had in writing it.

# Class Prophecy

The date, September 11, 1969; exactly ten years from the day that great class of '59 graduated. To commemorate their tenth anniversary they have all written to tell us what they are now doing. It certainly is refreshing to note that they are all happy with their nursing profession. Let us share their good fortunes with you.

MAGGIE BALOGH we find working in Jackson Memorial Hospital Miami, Florida as head nurse in charge of emotionally disturbed children. There with her are DEE GARDNER and BOBBI OHLHOFF. Dee is a Clinical Instructor and advisor to the local Student Nurses Association. Bobbi is head nurse on a mens' Medical-Surgical ward. As usual she is hypnotizing all the male patients with her eyes. MARY LOU REYNOLDS, who has been giving lectures on her experiences during business trips with her husband, is presently speaking to students at Jackson Memorial. Her topic is: Interpersonal Relationships and Personality; The Importance of a Friendly Smile.

JUDY JOY is supervisor of a men's semi-private floor at Bellevue and approaching her tenth marriage. SUE THOMPSON is also at Bellevue. Sue is Supervisor of the Operating Room and still single.

Several of the members of this illustrious class have been keeping the publishers busy. ELSIE KOENIG has an article in the latest AJN about her experiences as evening supervisor at the American Hospital in Paris. She finally found a place for her goat coat. RENIE MONIZ has won fame from having her first book published; "How to Organize". LOLA MIGLIACCIO wrote the recent NLN article concerning smoking with your dessert and its affect on digestion. NORMA HANSMAN has illustrated the new Anatomy textbook written by CLARA BOICE. VIRGINIA CONNEVEY, just returning from a trip around the world with her husband and four children wrote a text on the Growth and Development of Nursing based on the material she gathered from her trip.

We find that two of these graduates have opened clinics. RENIE COSTAS who is a member of the World Health Organization in Greece, naturally . . . is in charge of an eye clinic. JEAN SENIOR and her husband have opened a clinic in Boston for the underweight.

HARRIET HAMBURGER is a member of the Frontier Nursing Service in Kentucky. I heard her jeep broke down and she walked twelve miles to

deliver a baby . . . smiling all the way. CAROL GRAY is quite busy raising her own pediatric department, as well as being a part time pediatric nurse at Horton Hospital, Middletown, New York.

BERNIE BARRENGER is winning fame as a teacher of the Emergency treatment of frostbite in Alaska's largest hospital. While FRANNIE BARRENGER has just revised the nursing arts procedure for catheterization.

JUNE HAWKS is a Nursing Arts instructor demonstrating the procedure for setting up a tray for administering special mouth care. CHARLOTTE DICKINSON is an Orthopedic nurse and has taken over the Occupational Therapy Department in order to make trinkets for needy children.

You would never guess where JOY HEMINGWAY is. You're right, she's Infirmary nurse at Cornell. IZZY CAMARCO is, of all things, a Pediatric head nurse. She spends most of her time instructing children in the art of dancing the Cha-Cha.

HELEN NEUMANN is an Industrial nurse in her husband's lumber company. She sells MGs on the side. We find ALICE ROETTGER recruiting nurses for the Navy, as well as putting out an article for the Navy on the correct way to raise twins. TONI ZEOLI has done all we expected of her and more. She is now Director of Nursing at Presbyterian Hospital plus raising nine children. I've heard tell that she is still trying to make wine the national beverage.

MARILYN WEHNER is a part time office nurse as well as an organist. I just heard she was offered a contract of play professionally, but refused in order to stay with her family and nursing. THELMA PAFFENROTH is an Operating Room head nurse and she made footstools stock equipment for surgeons. EVIE VANDERSEA is office nurse for one of Poughkeepsie's prominent Gynecologists as well as raising her own two children. EVIE LATTIN is in charge of VBH nursery. Her favorite past-time is folding diapers for her own ten children.

SHIRLEY STEVENS is Secretary of the International Council of Nurses. She can be seen riding around in her current boy friend's new car. MARIE COPE is head nurse of Corridor 3 here at VBH. She is also advisor to Student Welfare Committee. Last but not least is NANCY OAKLEY who instructs patients in the Out Patient Department on the proper care of the finger nails.

# Class Poem

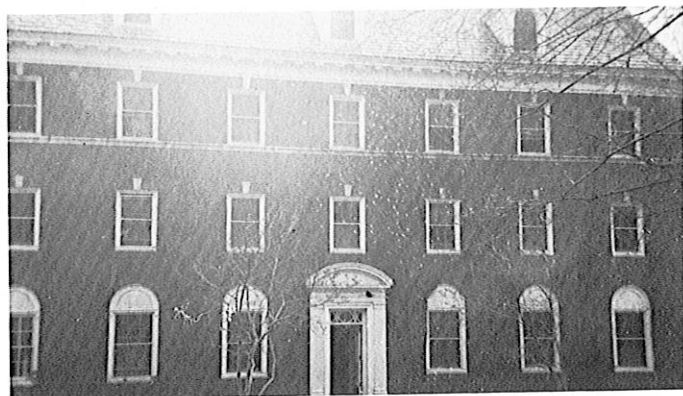

Seven o'clock — and the nurse's work  
Was done for another day!  
She heaved a sort of tired sigh  
And put the charts away.  
Then sat for a moment and bowed her head  
Over the little white desk.  
"I wonder," said she to herself, "after all  
Am I really doing my best?  
Perhaps I could have begun the day  
With a brighter, cheerier smile,  
And answered the bells with 'Right away'  
Instead of 'After a while'.  
"And I might have listened with sweeter grace  
To the story of Six's woes;  
She may be suffering more, perhaps,  
Than anybody knows.  
"And I might have refrained from the halfway frown,  
Although I was busy then,  
When the frail little girl with sad blue eyes  
Kept ringing again and again.  
"And I might have spoken a kindlier word  
To the heart of that restless boy,  
And stopped a moment to help him find  
The missing part of his toy.  
"Or perhaps the patient in Eighteen A  
Just needed a gentler touch;  
There are a lot of things I might have done  
And it wouldn't have taken much."  
She sighed again and brushed a tear,  
Then whispered, praying low,  
"My God, how can you accept this day,  
When it has been lacking so?"  
And God looked down, He heard the sigh,  
He saw that shining tear;  
Then sent His angel messenger  
To whisper in her ear:  
"Yes you could have done better today,  
But, oh! the Omniscient One,  
Seeing your faults, does not forget  
The beautiful things you have done.  
"He knows, little nurse, that you love your work  
In this house of pain and sorrow,  
So He gladly forgives the lack of today,  
For you will do better tomorrow."  
The nurse looked up with a grateful smile:  
Tomorrow I'll make it right!"  
Then added a note in the order book,  
"Be good to them tonight.

GIVE US THIS DAY

Give us this day to see Thy guiding light above,  
Give us this day to share Thy grace with those we  
love.

Let us tend a bough that's broken with gentle care,  
Be a friend to those who need us,  
Just lead us there.

Give us this day to show the way to everyone,  
Give us this day and Thy Commandments will be  
done.

Comes the night, the peaceful night,  
Silently we pray  
In thankfulness for giving us this day.

# Acknowledgements

There are many people who offer so much of themselves to the students, and there is little opportunity for us to thank them formally. Therefore the Class of '59 has set aside this page to acknowledge Mrs. "Ma" Bradford, Art Ellsworth, Win Van Dyne, and our four housemothers. Our fondest wish would be to be able to tell you how very much you have all meant to us. The countless number of little things have not gone by unnoticed or unappreciated. May Vassar Brothers Hospital always be fortunate enough to have such kind-hearted and understanding people. Our very sincere thanks and best wishes to you. As you helped us, so may you be blest a hundred fold.

## CHALLENGE OF OUR TIMES

Man over the centuries, and particularly in the last 100 years, has advanced in the scientific and technological fields at an almost phenomenal rate. At the same time, he has often been accused of faltering badly in his own self-development. Education today, more than ever before, holds the solution to this dilemma. For it is here, in our grade schools, high schools, colleges and universities, that science and the humanities share their most important meeting ground. And it comes at a time in man's life when his mind is in its most formative stages; when he displays a sincere and intense desire to seek out the truth and incorporate his findings in the goals of years to come. The destiny of our civilization will be decided by how successfully man can meet the challenge of our times; whether he can develop the tolerance and understanding necessary to enjoy the fruits of his labor.
